

Overview Transaction of French Bakery

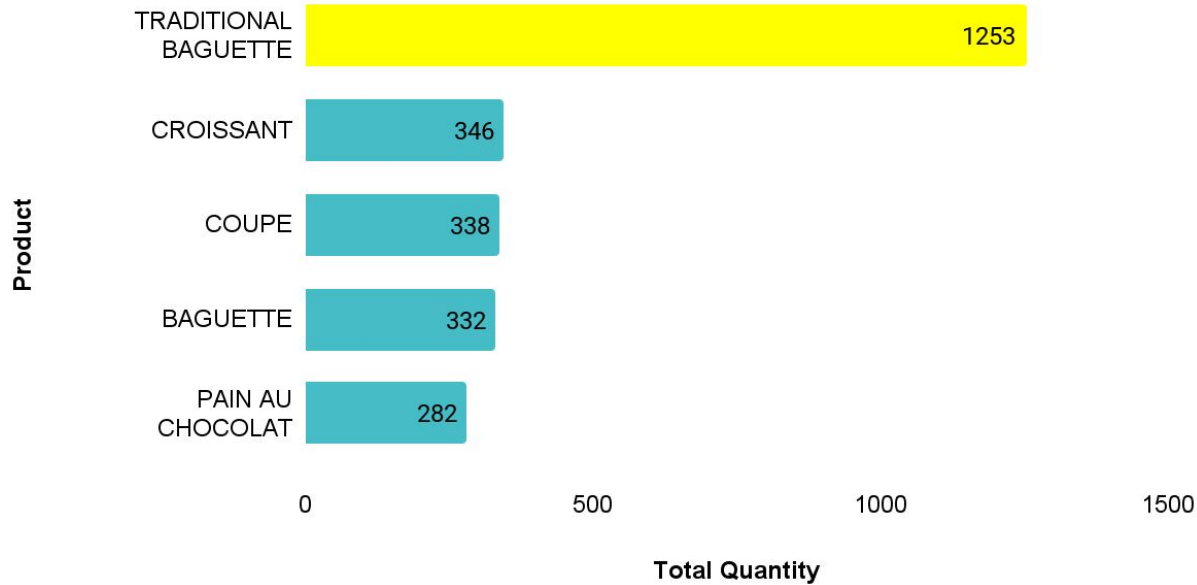

Alya Putri Avianti

Trend Transaction

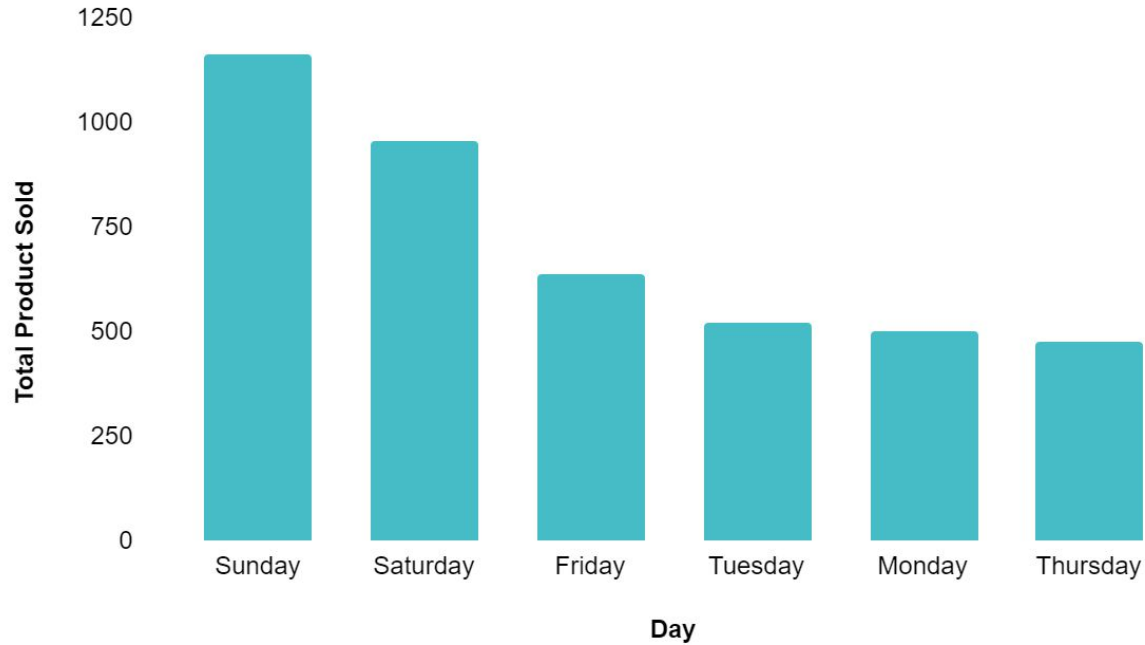

Downward trend of total product sold and unstable total product sold

Top 5 Product Sold

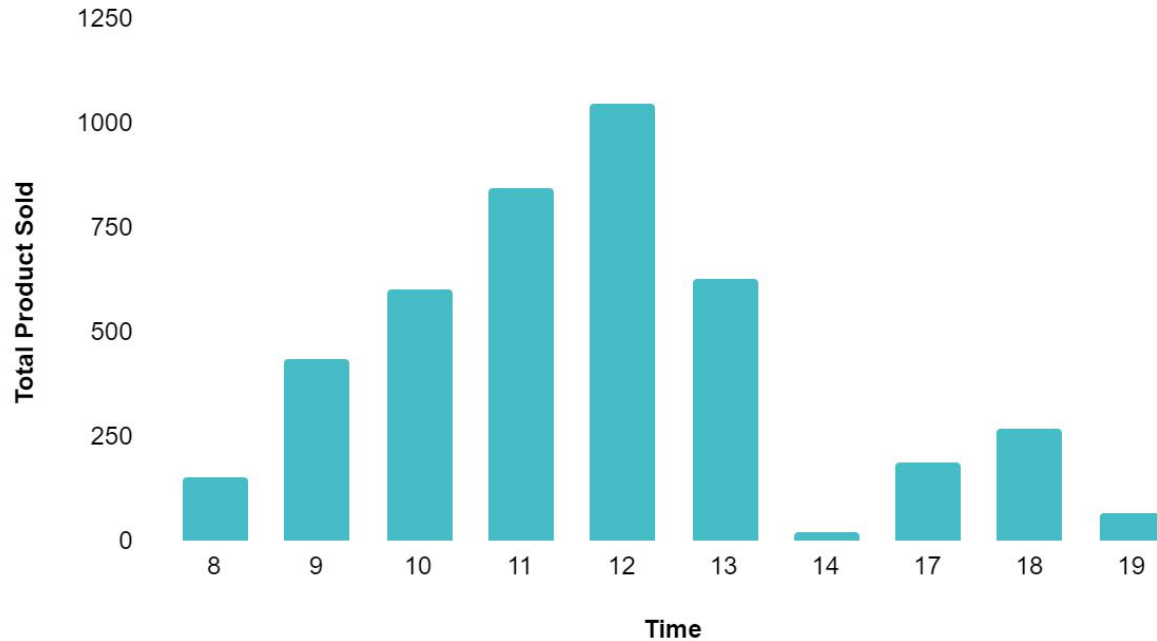

Traditional baguette has the highest total product sold

Day per Total Product Sold

Weekend has higher total product sold than any weekdays

Time per Total Product Sold

Lunch time has the highest total product sold than afternoon and morning time

SCR

Situation:

French bakery transaction last month trend is downward

Complication:

There's inconsistency product quantities to fulfil customer demand also avoid wasting resources, inconsistent transaction per day.

Resolution:

- There is an opportunity to fulfil the customer demand and avoid wasting resources.. This could be achieved by adjusting the resources daily
- There is other opportunity to improve product sold. This could be achieved by increasing the marketing efforts, optimizing product offers especially the best seller products.

Thank you
